

Amendments to the Specification

Please replace the "Brief Description of the Drawings" section with the following replacement section.

BRIEF DESCRIPTION OF THE DRAWINGS

Fig. 1 is a perspective view of a molded plastic substrate section for a continuous threshold assembly that embodies principles of the invention in a preferred form.

A1 Fig. 2 is a perspective view of a molded plastic substrate section for a continuous threshold assembly that embodies principles of the invention in an alternate preferred form.

Fig. 3 is a perspective view showing two substrate sections joined together end-to-end to form a support substrate according to the invention.

Fig. 4 is a perspective view of a shorter substrate section according to one embodiment of the invention.

Fig. 5 is a perspective exploded illustration showing a preferred method of fabricating a continuous threshold assembly using the modular substrate sections according to the invention.

Fig. 6 is a cross sectional view of an assembled threshold assembly fabricated according to the method illustrated in Fig.

5.
